Innovative Execution

**From Imagination
To Ideas,**

FROM IDEAS TO REAL!

The Seed of Success lies in a Dream. The Dream is nurtured by Originality and Conceptual thinking, The emergence is of a company with innovation backed by Freshness. This is how Garvit Creation initiated its Façade finishing GRC & FRP works Division in the year 2014.

With the Dedication & Valuable engineering services delivered to clients, the company today holds an eminent position in providing innovative solutions and execution of facade Finishing GRC & FRP works in Indian real estate domain.

An exemplary team of experts to ensure Exquisite Execution of projects, Resources to ensure smooth implementation is always inherent thereby appreciated time & again for the High standards of Quality & Safety, Versatility and Integrity.

An array of success ventures have been accomplished by us in the projects at Metro Stations, Malls, Banquet halls, Commercial Establishments & Residential Buildings.

OUR VISION

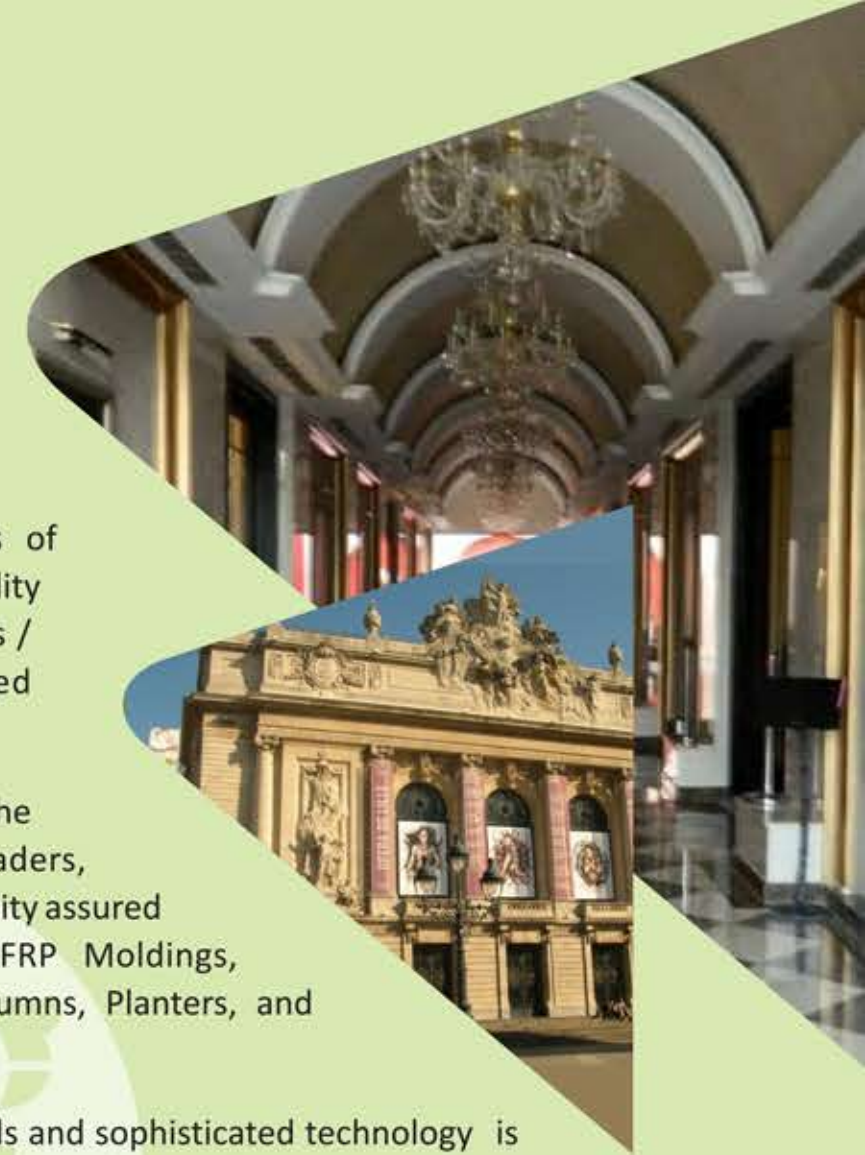

Execute our projects and designs with expertise & utmost Skills, to expand our horizons Worldwide.

Mission: Scale new Heights of Excellence by Delivering Quality Services to Architects / Builders / Developers of Leisure based Industry.

Garvit Creation is one of the prominent manufactures, traders, exporters and suppliers of a quality assured range of Architectural GRC/FRP Moldings, Screens, Panels, Brackets, Columns, Planters, and Domes.

Superior quality of raw materials and sophisticated technology is utilized in generating the final product. White cement, Imported Japanese Alkali Resistance Glass Fiber for Reinforcement, Imported Bonding agent, Chemical admixture and also German Imported Liquid Rubber are used for mold making and pattern designing.

Our competent workforce finalizes all the Façade design. The design Engineers accurately transform the fabrication drawings into production procedures. The final products undertake standardized quality assurance to ensure that they meet the design specifications.

Shaping Concepts, Delivering Value

The Elegant, The Light weight & the urbane!

G R C –Glass Fibre Reinforced concrete is a composite material made from Portland cement, special aggregate, polymers, chemical admixtures and alkali resistant glass fibres. Developed in the twentieth century, G R C allows production of strong, get lightweight architectural materials due to high flexural, tensile and imparts strength. G R C is also suitable for 'over cladding' if existing structures as part of building rehabilitation, and for interior details and feature panels.

GRC/FRP Panels

G R C panels can be produced with a range of textures and colors, even to the point of replicating and harmonizing with existing and even historic structures.

GRC can be painted, faced with fine aggregate, coloured or simply left with a natural white or grey, smooth or textured finish.

GRC/FRP Cladding

A non structural material for safeguarding internal and external building frontages. Above all it adds natural beauty of stones to the architecture. Giving a magical face lift to the decor of exterior, our range of wall cladding is the first choice of elite section. We offer wall cladding, which are manufactured from finest quality of GRC to last for a long period of time.

GRC/FRP Screens

GRC Architectural Stone work screens & Jalis are lightweight and highly versatile, can be made in size, design and thickness as per architect's specifications.

A Wonder to the Architects, A Marvel to the Society

GRC / FRP Columns

A column in structural engineering is a vertical structural element that transmits, through compression, the weight of the structure above to other structural elements below. We are the leading manufacturers of a wide range of GRC columns and head rails that are available in different cap designs. Fabricated using superior quality material, these columns and head rails are moisture resistant and come with superior sound and heat insulation properties.

GRC/FRP Brackets

Cornices & Brackets are manufactured as per the design of the customer (standard designs are also available). The cornices and brackets are produced in varying sizes, shapes, and thicknesses. The applications are as the name suggests; decorative cornices and brackets for building/villa/palace exteriors.

GRC/FRP Planters

Beautiful colors, Light weight. Our range is high in strength, easy and convenient to install and is offered with smooth surface finish

Authentic Designs, Appealing Sights !

The GRC Division manufactures many different products as per the customer requirements. GRC products can come in any color, shape and size. GRC has two different finishes: one smooth in texture, and the other is rough in texture imitating the effects of stone.

GRC/FRP Cornices

The cornice, by extension, becomes any horizontal molded projection which crowns an element: the cornice of a door or window, for instance, or the cornice of a pedestal. A simple cornice may be formed just with a crown molding.

GRC/FRP Ballusters & Fountains

Modular system consisting of ballusters, top rail, and bottom rail.

Bottom and top rail have a 1 inch hole running along the length to assist in connecting adjacent rails using a rebar. Suitably Reinforced.

To give a harmonious & a soothing atmosphere and beautiful environ to exteriors, we offer wide range of stone built GRC Fountain that are creatively designed and meticulously carved. We have all the facilities and desirable talent that is required for making different types of fountain structures.

Our Projects Our Pride

The Dedication, The innovative Engineering Services,

the valuable exploration of creating the classic Reflects the magical blend of visual appeal and lasting functionality. Our GRC/FRP architectural decoration products are enhancing the grace of abodes, offices, hotels, parks, Malls, Houses, etc.

We have been striving for the best and we deliver the quality beyond compare. Each and every Project from Designing to Installation is taken care of with utmost skills. The perfection is guaranteed and the result is stunning.

Everything bears a harmony, an alluring look suited to the need of the hour. We believe that Dreams can be turned into reality with our inner passion to achieve BIG for our clients.

Our Team keeps this Motto in Mind 'Transforming Dreams into Real with Utmost satisfaction & Ultimate Desires'
